An Act Temporarily to provide revenue for the Philippine Islands, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of an Act entitled “An Act to revise and amend the tariff laws of the Philippine Archipelago,” enacted by the United States Philippine Commission on the seventeenth day of September, nineteen hundred and one, shall be and remain in full force and effect, and there shall be levied, collected, and paid upon all articles coming into the Philippine Archipelago from the United States the rates of duty which are required by the said Act to be levied, collected, and paid upon like articles imported from foreign countries into said archipelago.

SEC. 2. That on and after the passage of this Act there shall be levied, collected, and paid upon all articles coming into the United States from the Philippine Archipelago the rates of duty which are required to be levied, collected, and paid upon like articles imported from foreign countries: *Provided*, That upon all articles the growth and product of the Philippine Archipelago coming into the United States from the Philippine Archipelago there shall be levied, collected, and paid only seventy-five per centum of the rates of duty aforesaid: *And provided further*, That the rates of duty which are required hereby to be levied, collected, and paid upon products of the Philippine Archipelago coming into the United States shall be less any duty or taxes levied, collected, and paid thereon upon the shipment thereof from the Philippine Archipelago, as provided by the Act of the United States Philippine Commission referred to in section one of this Act, under such rules and regulations as the Secretary of the Treasury may prescribe, but all articles, the growth and product of the Philippine Islands, admitted into the ports of the United States free of duty under the provisions of this Act and coming directly from said islands to the United States for use and consumption therein, shall be hereafter exempt from any export duties imposed in the Philippine Islands.

SEC. 3. That on and after the passage of this Act the same tonnage taxes shall be levied, collected, and paid upon all foreign vessels coming into the United States from the Philippine Archipelago which are required by law to be levied, collected, and paid upon vessels coming into the United States from foreign countries: *Provided, however*, That until July first, nineteen hundred and four, the provisions of law restricting to vessels of the United States the transportation of passengers and merchandise directly or indirectly from one port of the United States to another port of the United States shall not be applicable to foreign vessels engaging in trade between the Philippine Archipelago and the United States, or between ports in the Philippine Archipelago: *And provided further*, That the Philippine Commission shall be authorized and empowered to issue licenses to engage in lightering or other exclusively harbor business to vessels or other craft actually engaged in such business at the date of the passage of this Act, and to vessels or other craft built in the Philippine

Islands or in the United States and owned by citizens of the United States or by inhabitants of the Philippine Islands.

SEC. 4. That the duties and taxes collected in the Philippine Archipelago in pursuance of this Act, and all duties and taxes collected in the United States upon articles coming from the Philippine Archipelago and upon foreign vessels coming therefrom, shall not be covered into the general fund of the Treasury of the United States, but shall be held as a separate fund and paid into the treasury of the Philippine Islands, to be used and expended for the government and benefit of said islands.

SEC. 5. That when duties prescribed by this Act are based upon the weight of merchandise deposited in any public or private bonded warehouse, said duties shall be levied and collected upon the weight of such merchandise at the time of its entry.

SEC. 6. That all articles manufactured in bonded manufacturing warehouses in whole or in part of imported materials, or of materials subject to internal-revenue tax and intended for shipment from the United States to the Philippine Islands, shall, when so shipped, under such regulations as the Secretary of the Treasury may prescribe, be exempt from internal-revenue tax, and shall not be charged with duty except the duty levied under this Act upon imports into the Philippine Islands.

That all articles subject under the laws of the United States to internal-revenue tax, or on which the internal-revenue tax has been paid, and which may under existing laws and regulations be exported to a foreign country without the payment of such tax, or with benefit of drawback, as the case may be, may also be shipped to the Philippine Islands with like privilege, under such regulations and the filing of such bonds, bills of lading, and other security as the Commissioner of Internal Revenue may, with the approval of the Secretary of the Treasury, prescribe. And all taxes paid upon such articles shipped to the Philippine Islands since November fifteenth, nineteen hundred and one, under the decision of the Secretary of the Treasury of that date, shall be refunded to the parties who have paid the same, under such rules and regulations as the Secretary of the Treasury may prescribe, and a sum sufficient to make such payment is hereby appropriated, out of any money in the Treasury not otherwise appropriated.

That where materials on which duties have been paid are used in the manufacture of articles manufactured or produced in the United States, there shall be allowed on the shipment of said articles to the Philippine Archipelago a drawback equal in amount to the duties paid on the materials used, less one per centum of such duties, under such rules and regulations as the Secretary of the Treasury may prescribe.

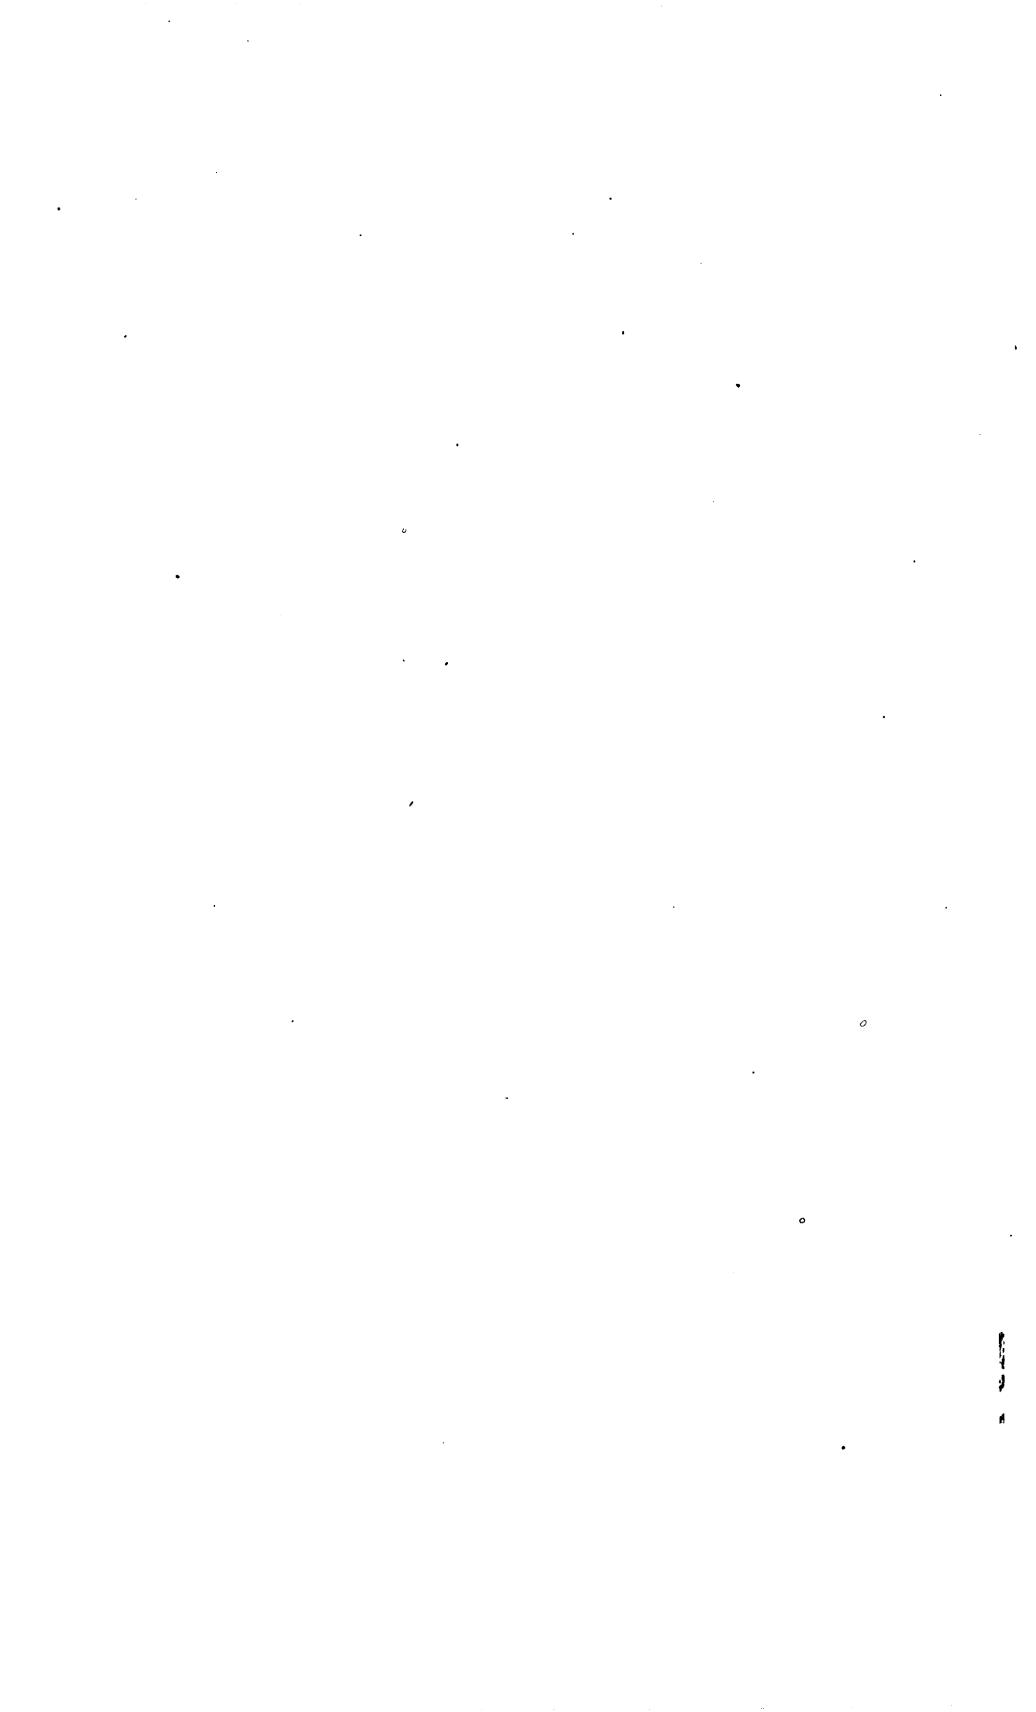

SEC. 7. That merchandise in bonded warehouse or otherwise in the custody and control of the officers of the customs, upon which duties have been paid, shall be entitled, on shipment to the Philippine Islands within three years from the date of the original arrival, to a return of the duties paid less one per centum, and merchandise upon which duties have not been paid may be shipped without the payment of duties to the Philippine Islands within said period, under such rules and regulations as may be prescribed by the Secretary of the Treasury.

SEC. 8. That the provisions of the Act entitled "An Act to simplify the laws in relation to the collection of revenues," approved June tenth, eighteen hundred and ninety, as amended by an Act entitled

"An Act to provide for the Government and to encourage the industries of the United States," approved July twenty-fourth, eighteen hundred and ninety-seven, shall apply to all articles coming into the United States from the Philippine Archipelago.

SEC. 9. That no person in the Philippine Islands shall, under the authority of the United States, be convicted of treason by any tribunal, civil or military, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

AN ACT TO REVISE AND AMEND THE TARIFF LAWS OF THE PHILIPPINE ARCHIPELAGO.

By the authority of the President of the United States, and with the approval of the Secretary of War first had, be it enacted by the United States Philippine Commission:

SECTION 1. The provisions of General Order No. 49, Office of the United States Military Governor in the Philippine Islands, dated October 23, 1899, relating to customs duties on imports and exports of the Philippine Islands, and tonnage duties and wharf charges therein, and the several orders supplemental thereto and amendatory thereof, are hereby amended to read as follows:

SEC. 2. Duties shall be collected on all articles, goods and merchandise imported into the Philippine Islands at the rates hereinafter provided, except when expressly exempted from duty by this Act.

SEC. 3. Merchandise in transit at the time the present revision goes into effect, may be entered under the provisions of law existing at the time of shipment; provided, however, that this privilege shall not be extended beyond the period of sixty days after the date of the enforcement of the present tariff of duties and taxes.

SEC. 4. Duties shall be collected at the rates hereinafter provided on such articles, goods and merchandise exported from the Philippine Islands as are hereinafter specifically prescribed in this Act.

SEC. 5. The following rules and regulations shall be observed in the construction and enforcement of the various provisions of this Act:

GENERAL RULES.

CUSTOMS TREATMENT OF TEXTILES.

RULE 1. *Number of threads and its ascertainment.*—By the number of threads in a textile shall, unless otherwise stipulated, be meant the totality of all the threads comprised in the warp and weft in a square of six millimeters. The warp of textiles is to be considered as the totality of the threads which lie longitudinally, whether they form the foundation of the same, or whether they have been added in order to form patterns or give the stuff more body. The weft shall be considered the totality of the threads which cross the warp of the textile, and combine the same conditions of helping to form patterns or to add to the body of the stuff. In order to determine for customs treatment of textiles, the number of threads and the proportion in which the threads

subject to the highest duty are found in the textile, the instrument known as the "thread counter" shall be employed.

Should there be a doubt as to the ascertainment of the number of threads in a textile, owing to the textile being more closely woven in some parts than in others, the most closely woven part and the most loosely woven part shall be taken, and the average number of threads resulting from the two shall serve as a basis for levying duty.

When the nature of the tissue permits it, the thread shall always be counted on the obverse side of the stuff.

In all woolly or melton-like textiles, and generally in all textiles in which the threads have become indistinct by carding or fulling, the threads shall be counted on the reverse side of the stuff by rasping or burning the hair when necessary.

In exceptional cases, where after these operations the ascertainment of the number of threads remains doubtful, a sufficient part of the textiles shall be unraveled.

Should this likewise be impossible, as, for instance, in case of ready-made articles, the textile shall be subject to the highest duty of the group to which it belongs, and should the textile be mixed, it shall be dutiable according to the class in which the most highly taxed material entering into the mixture is comprised.

CUSTOM TREATMENT OF MIXED TEXTILES.

RULE 2. *Admixtures of two materials.*—Textiles of all kinds, composed of two materials, shall be dutiable as follows:

(a) Cotton textiles containing threads of hemp, jute, linen, ramie, or other vegetable fiber shall be dutiable according to the corresponding numbers of group 3, Class IV, with the surtaxes established in each case,¹ provided the number of these threads of hemp, jute, linen, ramie, or other vegetable fibers, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of hemp, jute, linen, ramie or other vegetable fiber exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class V.

(b) Cotton textiles containing threads of wool, flock wool, hair, or wastes of these materials shall be dutiable according to the corresponding numbers of group 3, Class IV, with the surtaxes established in each case,¹ provided that the number of threads of wool, flock wool, hair, or their wastes, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VI, as textiles mixed with wool.

(c) Cotton textiles containing threads of silk or floss silk shall be

¹Class IV, group 3, Rule A.

dutiable according to the corresponding numbers of group 3, Class IV, with the surtaxes established in each case,¹ provided that the number of silk or floss-silk threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk or floss silk exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.¹

(d) Textiles of hemp, jute, linen, ramie, or other vegetable fibers, containing threads of wool, flock wool, hair, or their wastes shall be dutiable according to the corresponding numbers of group 2, Class V, with the surtaxes established in each case,² provided that the number of these threads of wool, flock wool, hair, or their wastes, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of group 3, Class VI, as textiles mixed with wool.²

(e) Textiles of hemp, jute, linen, ramie, or other vegetable fibers containing threads of silk or floss silk shall be dutiable according to the corresponding numbers of group 2, Class V, with the surtaxes established in each case,² provided that the number of these threads of silk or floss silk, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.²

(f) Textiles of wool, flock wool, or hair, containing threads of silk, or floss silk, shall be dutiable according to the corresponding numbers of group 3, Class VI, with the surtaxes established in each case,³ provided that the number of silk or floss-silk threads does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.³

RULE 3. *Admixtures of more than two materials.*—Textiles composed of more than two materials shall be dutiable as follows:

(a) Textiles containing an admixture of wool and cotton, or of wool and other vegetable fibers and, at the same time, threads of silk or of floss silk, shall be subject to the corresponding duties of Class VI, as mixed woolen textiles, whatever be the proportion of the threads of vegetable fibers, and shall in addition be liable to the surtax leviable on the silk or floss-silk threads; provided that the number of these

¹Class IV, group 3, Rule A.

²Class V, group 2, Rule A.

³Class VI, group 3, Rule A.

threads counted in the warp and weft does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.

(b) Textiles containing an admixture of cotton and other vegetable fibers and at the same time threads of silk or floss silk, shall be subject to the corresponding duties of Class V, and assimilated to textiles of jute, hemp, etc., whatever be the proportion of the cotton threads; they shall, in addition, be liable to the surtax leviable on the silk or floss-silk threads, provided that the number of these threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.

(c) Textiles of an admixture of wool, cotton and other vegetable fibers, containing no silk threads, shall be subject to the corresponding duties of Class V, and shall, in addition, be liable to the surtax leviable on woolen threads, provided that the number of these threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of woolen threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VI, as woolen textiles.

RULE 4. *Silk textiles.*—All textiles containing silk or floss-silk threads the number of which, counted in the warp and weft, exceeds one-fifth of the total number of threads composing the textile, shall be considered as textiles of silk.

When the number of silk or floss-silk threads, counted in warp and weft, exceeds one-half of the total, the textiles shall be considered and dutiable as pure silk.

EXCEPTIONS.

For knitted stuffs, tulles, laces, blondes, and ribbons, composed of an admixture, exception to the preceding rules shall be made in the following cases:

RULE 5. *Knitted and netted stuffs.*—All kinds of knitted stuffs and tulles, laces, and blondes, when mixed, shall be dutiable according to the corresponding numbers of the class comprising the threads of the material most highly taxed, whatever be the proportion of such threads in the textile.

Knitted stuffs, laces, blondes, and tulles, comprised in Class VII, shall be considered as textiles mixed with silk when they contain threads

of cotton or other vegetable fibers, or of wool or flock wool, whatever be the proportion of such threads in the mixture.

RULE 6. *Ribbons*.—Ribbons and galloons mixed with cotton and other vegetable fibers or with vegetable fibers and wool, containing no silk, shall be subject to the corresponding duties of the class comprising the threads most highly taxed.

Ribbons or galloons containing silk, in whatever proportion, shall be dutiable as textiles according to the corresponding numbers of Class VII.

RULE 7. *Trimmings*.—Trimmings shall be dutiable on the total weight, as if exclusively composed of the apparent or visible textile material.

Trimmings composed on their apparent or visible part of various textile materials shall be subject to the corresponding duties of the class comprising the material most highly taxed. When the predominating component material consists of metallic threads of any kind, the trimmings shall be dutiable according to Class VII.

Trimmings are distinguished from ribbons and galloons by the latter being real textiles, with warp and weft, while trimmings are plaited.

SURTAXES.

RULE 8. *Establishment of surtaxes*.—The surtaxes applicable, owing to *broché*, embroidery, metal threads, or making up, shall always be computed on the duties leivable on the textile by taking into account, if necessary, the increase of such duties in case of admixture.

For the collection of the total duty, the surtaxes applicable for either of the above-mentioned reasons shall, when necessary, be added together.

RULE 9. *Brochés*.—Textiles, *brochés* or woven like brocades, with silk or floss silk, shall be liable to the duties leivable thereon, plus the sur-taxes established in every case.¹

Brochés or brocaded textiles are all textiles with flowers or other ornaments applied by means of a shuttle in such manner that the threads do not occupy the entire width of the stuff but only the space comprising the flower or pattern.

RULE 10. *Embroidery*.—Textiles embroidered by hand or machine after weaving or with application of trimmings shall be liable to the duties leivable thereon, plus the surtaxes established in every case.²

Embroidery is distinguished from patterns woven in the textile as the latter are destroyed by unraveling the weft of the textile, while embroidery is independent of the warp and weft and can not be unraveled.

¹ Class IV, group 3, Rule B, letter (a); and Class V, group 2, Rule B, letter (a).

² Class IV, group 3, Rule B, letter (b); Class V, group 2, Rule B, letter (b).

RULE 11. *Metallic threads.*—Textiles and trimmings containing metallic threads, in whatever proportion, shall be liable to the duties leviable thereon, plus the surtaxes established in every case.¹

Textiles exclusively composed of metallic threads shall be dutiable according to Class VII.

RULE 12. *Made-up articles.*—Textiles manufactured into articles of all kinds shall be liable to the duties leviable thereon, plus the surtaxes established in every case.²

Ready-made clothing, wearing apparel of all kinds and of any style, and, generally, all articles made up by the seamstress or tailor, shall, for their total weight, be liable to duties leviable on the principal component textile on their most visible exterior part.

For the application of the corresponding surtaxes, clothing and articles, half finished, cut or basted, shall be considered as made-up articles and clothing.

RULES APPLICABLE TO GOODS NOT SPECIALLY MENTIONED AND TO ARTICLES COMPOSED OF SEVERAL MATERIALS.

RULE 13. Articles not enumerated in the tariff shall, for the application of duty, be assimilated to those which they most closely resemble,³ and shall in the first instance be so classified by the collector of the port of entry into which the articles are brought.

When an article presented for appraisal is not mentioned in a number of the tariff or in the repertory, and when doubts arise as to its assimilation to articles specified in the tariff, the interested party or the importer may request the collector at the port of entry to indicate the number according to which such article is dutiable.

In such case, the appraisal shall be made according to the number so indicated.⁴

RULE 14. Articles which, by reason of their nature or their application, are composed of two or more materials or of different parts, as, for instance, the handle of an implement and the implement itself; the glass and frame of a mirror, shall, for the total weight, be taxed according to the material chiefly determining the value of the article.

RULE 15. That each and every imported article, not enumerated in this Act, which is similar, either in material, quality, texture, or the use to which it may be applied, to any article enumerated in this Act as chargeable with duty, shall pay the same rate of duty which is levied on the enumerated article which it most resembles in any of the

¹Class IV, group 3, Rule B, letter (c); Class V, group 2, Rule B, letter (c).

²Class IV, group 3, Rule B, letter (d); Class V, group 2, Rule B, letter (d).

³See Rule 15.

particulars before mentioned; and if any nonenumerated article equally resembles two or more enumerated articles on which different rates of duty are chargeable, there shall be levied on such nonenumerated article the same rate of duty as is chargeable on the article which it resembles paying the highest rate of duty; and on articles not enumerated, manufactured of two or more materials, the duty shall be assessed at the highest rate at which the same would be chargeable if composed wholly of the component material thereof of chief value; and the words "component material of chief value," wherever used in this Act, shall be held to mean that component material which shall exceed in value any other single component material of the article; and the value of each component material shall be determined by the ascertained value of such material in its condition as found in the article. If two or more rates of duty shall be applicable to any imported article, it shall pay duty at the highest of such rates.

REGULATIONS TO BE APPLIED TO LEVYING DUTY ON PACKING, PACKAGES, AND RECEPTACLES.

RULE 16. Common packing, packages, receptacles and coverings of imported merchandise in use and imported with such merchandise, shall be dutiable under their corresponding paragraphs of the tariff except in the case of goods dutiable by gross weight or ad valorem.

RULE 17. In all cases in which dutiable merchandise shall by its tariff number be dutiable upon the gross weight, the dutiable weight of such merchandise shall include the weight of all covers, receptacles, wrappers, packages and packing of every description, whether exterior, interior, or immediate, without any allowance for tare.

RULE 18. In all cases in which dutiable merchandise shall by its tariff number be dutiable upon net weight, the dutiable weight of such merchandise shall not include the weight of any common exterior cover, receptacle, package, wrappers or packing, but shall include all interior or immediate receptacles.

RULE 19. When in a single receptacle are imported goods dutiable by net weight, together with others dutiable by gross weight, the former shall be assessed by their net weight in accordance with the preceding Rule No. 18; and the latter shall be assessed together with the weight of the entire exterior receptacle; or, in case there should be more than one class of goods dutiable by gross weight, they shall be assessed together with the weight of the entire exterior receptacle proportionately divided between them in accordance with their respective net weights.

In the case of goods dutiable by net weight packed together with goods dutiable by unities, the former shall be assessed as above pre-

scribed, and the latter shall pay by unities; the exterior receptacle will then be dutiable by its corresponding paragraph. For the purposes of this rule, goods dutiable ad valorem and goods free of duty shall be considered and appraised as by net weight.

RULE 20. Where merchandise, dutiable upon its net weight, where not otherwise specially provided for, is customarily contained in packing, packages or receptacles of uniform or similar character, it shall be the duty of the Collector of the Islands from time to time to ascertain by tests the actual weight or quantity of such merchandise and the actual weight of the packages, packing or receptacles thereof, respectively, in which such merchandise is customarily imported, and, upon such ascertainment, to prescribe regulations for estimating the dutiable weight or quantity of such merchandise, and thereafter such merchandise imported in such customary packing, packages and receptacles shall be entered, and the duties thereon levied and collected, upon the basis of such estimated dutiable weight or quantity.

These bottles shall be forwarded to the customs chemical expert in order to be assayed.
